

A One library: 311 skeletons, 34–102 joints

B One model

C Motion from text on any of them, and on a rig it has never seen

Moose: "the moose runs and then slows to a walk"

Cheetah: "the cheetah jumps out from her spot"

Elephant: "the juvenile elephant starts to walk and turns left"

Gharial: "the gharial swims and then turns left"

unseen rig: Dragon (95 j.) — rest pose + 10 clips → adapter
